

1.Table: tb_login

Fields	DataType	Attributes	Description
id	int(10)	PK Auto Increment	Id of the user
loginkey	varchar(8)	-	Unique login key of user
email	varchar(30)	-	Email id of user
password	varchar(32)	-	Password of user [md5 encryption]
utype	enum(0,1,2,3,4,5,6,7,8)	-	Used to redirect to different homepage based on each user.
otpstatus	enum(0,1,2,3)	-	Status of users account based on email otp [approved/rejected/pending]

2.Table: tb_public

Fields	Data Type	Attributes	Description
id	int(10)	PK Auto Increment	Id of user
pkey	varchar(8)	-	Unique key of user
pname	varchar(30)	-	Name of user
pgender	varchar(6)	-	Gender of user
pphone	varchar(10)	-	Phone number
paddress	varchar(50)	-	Address of user
pdistrict	varchar(20)	-	District of user
ppincode	varchar(6)	-	Pincode of user
loginid	int(10)	FK [from login table]	Login id of user taken from login table id[primary key]

3.Table: tb_policestation

Fields	DataType	Attributes	Description
id	int(10)	PK Auto Increment	Id of police station
tkey	varchar(8)	-	Unique key of police station
tname	varchar(30)	-	Name of police station
tphone	varchar(10)	-	Phone number
taddress	varchar(50)	-	Address of police station
tdistrict	varchar(20)	-	District of attender
tpincode	varchar(6)	-	Pincode of police station
loginid	int(10)	FK [from login table]	Login id of police station taken from login table id[primary key]

4.Table: tb_patients

Fields	DataType	Attributes	Description
id	int(10)	PK Auto Increment	Id of patient
pkey	varchar(8)	-	Unique key of patient
pname	varchar(30)	-	Name of patient
pgender	varchar(6)	-	Gender of patient
pphone	varchar(10)	-	Phone number of patient
paddress	varchar(50)	-	Address of patient
pdistrict	varchar(20)	-	District of patient
ppincode	varchar(6)	-	Pincode of patient
pstatus	varchar(50)	-	Status or description about patient
bedstatus	enum(0,1)	-	Bed needed for the patient or not?
hospid	int(10)	FK [from tb_hospital table]	Hospital id taken from tb_hospital

5.Table: tb_bill

Fields	DataType	Attributes	Description
id	int(10)	PK Auto Increment	Id of bill
bkey	varchar(8)	-	Unique key of bill
bdate	date	-	Bill date
bamount	varchar(6)	-	Bill Amount
bstatus	varchar(10)	-	Status of bill
pid	int(10)	FK [pid taken from tb_patient table]	Patient id taken from tb_patient

6.Table: tb_ticket

Fields	DataType	Attributes	Description
id	int(10)	PK Auto Increment	Id of passenger ticket
tkey	varchar(8)	-	Unique key of patient
tdate	date	-	Travelling date of passenger
passno	Varchar(20)	-	Passport Number
passname	Varchar(20)	-	Passenger name

pphone	varchar(10)	-	Phone number of passenger
paddress	varchar(50)	-	Address of passenger
pdistrict	varchar(20)	-	District of passenger
ppincode	varchar(6)	-	Pincode of passenger
pemail	varchar(30)	-	Email id of passenger
pquarentine	varchar(30)	-	Quarantine details
pstatus	varchar(30)	-	Status of passenger [about his/her health conditions]

7.Table: tb_interdistricttravel

Fields	Data Type	Attributes	Description
id	int(10)	PK Auto Increment	Id of travelpass
tkey	varchar(8)	-	Unique key of patient
tdate	date	-	Travelling date of passenger
totpassenger	int(10)	-	Total number of passengers
vehicleno	Varchar(20)	-	Vehicle Reg. Number

passname	Varchar(100)	-	Passenger names
travelfrom	Varchar(20)	-	Travelling from
travelto	Varchar(20)	-	Travelling to
passstatus	enum(0,1,2)	-	Pass status
comments	Varchar(20)	-	Comments quoted by police station about pass

8.Table: tb_quarantine

Fields	Data Type	Attributes	Description
id	int(10)	PK Auto Increment	Id of Quarentine details
pkey	varchar(8)	-	Unique key of Quarentine details
pname	varchar(30)	-	Name of user
pgender	varchar(6)	-	Gender of user
pphone	varchar(10)	-	Phone number
paddress	varchar(50)	-	Address of user
pdistrict	varchar(20)	-	District of user

ppincode	varchar(6)	-	Pincode of user
loginid	int(10)	FK [from login table]	Login id of Police station taken login table

9.Table: tb_policenotification

Fields	Data Type	Attributes	Description
id	int(10)	PK Auto Increment	Id of notification
nkey	varchar(8)	-	Notification
ntitle	varchar(30)	-	Notification Title
ndesc	varchar(200)	-	Notification Description
ndate	date	-	Date of notification
nstatus	enum(0,1,2)	-	Status of notification
loginid	int(10)	FK [from login table]	Login id of Police station taken login table

10.Table: tb_policemsgpublic

Fields	Data Type	Attributes	Description
id	int(10)	PK Auto Increment	Id of message
mkey	varchar(8)	-	Message key
mtitle	varchar(30)	-	Message Title
mdesc	varchar(200)	-	Message Description
mdate	date	-	Date of message
nstatus	enum(0,1,2)	-	Status of message
nresponse	varchar(200)	-	Response from police
loginid	int(10)	FK [from login table]	Login id of user/public taken login table
